JUMBO—Very large, firm, deep red berry. Heavy yielding, mid-season. It is deep red all through. Excellent for table and freezing.

WIS. 2-14—New introduction from University of Wisconsin. Better for freezing than any other. Two to three days later than Premier. Good size, solid, red, vigorous, highly productive. Top quality fruit for garden or commercial production in Wisconsin.

PREMIER—The most popular berry in use today, large bright red, high quality berry. Early and high yielding. More frost resistant than other varieties.

CATSKILL—Very large, dark red fruit. Solid berry. Top quality. Mid-season maturity.

WIS. 2-61—Large bright red color. Late and high yielding. Introduced by University of Wisconsin.

WIS. 5-37—Dark red berry. Good flavor. Big yielder.

50 - \$1.90 100 - \$3.00 250 - \$6.50 500 - \$10.00 1000 - \$17.00

SENATOR DUNLAP—One of the oldest popular varieties. Very prolific. One of the easiest varieties to grow.

ROBINSON—A good, large, deep red fruit. A good berry for sandy soil. A good producer.

50 - \$1.75 100 - \$2.75 250 - \$5.00 500 - \$9.00 1000 - \$15.00
